

PROJECT LOCATION

Bethesda, MD

CLIENT

National Home for Children & Families

SCOPE

New Building
12,300 SF

DESCRIPTION

Upon previous completion of new, separate buildings for girl's & boy's dorms, the demolition of an existing boy's resident dormitory to construct a Volunteer Center, proceeded. This two story, wood frame, facility houses campus facilities for conference, training, classroom, business, and volunteer services. The exterior featured the start of a covered Kalwall translucent walkway, eventually intended to link all the campus facilities around a central landscaped field.

ARCHITECT

Reithlingshoefer Smith & Assoc.
