

PROJECT LOCATION

East Montgomery Village, MD

CLIENT

The Tower Corporation

SCOPE

New Building
36,000 SF

DESCRIPTION

The construction of the new headquarters for The Jane Salzano Center for Autism was completed from conceptual estimates and assistance during the project design phase. This one story, wood frame structure was expanded to 36,000 SF and serves the community by housing, supporting, training and assisting individuals and families with autism. The curvilinear design and specialized interior elements serve to achieve the soothing, inviting environment necessary for their public work.
