DESCRIPTION

This project is a doctor's office suite located on the ground floor of a three level condo building. The space has (5) exam rooms with sinks and cabinets, a break room, a receptionist area and an audiology booth. The entrance was significantly enhanced with new double glass doors where there were windows previously, a concrete walkway and new railing. Inside the suite there is luxury vinyl tile with a wood look and new wood base, with upscale lighting and mill-work throughout.
