

**PROJECT LOCATION**

Washington, DC

**CLIENT**

Warby Parker

**PROJECT SIZE**

1,565 SF

**SCOPE**

Tenant Build-Out

**DESCRIPTION**

The Project involved the renovation of a historic Georgetown retail space for a specialty eyewear business that designs custom high quality glasses for customers in-house. A major challenge involved configuration of a new mechanical system, power and fixtures in limited ceiling space after removal of a majority of existing finishes. An extremely aggressive schedule to meet a high profile grand opening had to be achieved regardless of numerous obstacles encountered from numerous hidden conditions.

**ARCHITECT**

Lawrence Group
